PROFILE

Final-year Software Engineering student at the Faculty of Polytechnic, University of Zenica, with a strong interest in web development and modern web applications. Through academic projects, professional internship, and independent work, I have gained practical experience in developing applications using JavaScript, React, Node.js, PHP/Laravel, and WordPress. I am motivated by continuous learning, building practical software solutions, and collaborating in team-oriented environments.

EXPERIENCE & PROJECTS

Professional Internship 2026 – INPUT Center, Zenica

Developed and customized WordPress websites, managed website content using the WordPress CMS, performed theme customization and basic website optimization, and collaborated with a team on the development of web projects.

SocialPass– Event Managment Platform

Independently developed a web platform for event organization and management. Defined the business logic, functional requirements, user roles, and user flows. Designed a responsive user interface (UX/UI) and deployed the application on Vercel with the support of AI-assisted development tools.

SCI&TECH Challenge, Zenica

Awarded 1st Place in a science, technology, and innovation competition for high school students.

IT Community Volunteering

Volunteer at the HammerIT Conferences (2023, 2024) and the SpinIT Conference (2024). Volunteer with the Hastor Foundation since 2022.

Workshops & Training

Genesis Project, Banja Luka,– Training on youth rights and social inclusion; Kinderdorf Pestalozzi, Switzerland – Two-week workshop on social skills development; ZEDA Development Agency – "I Am an Entrepreneur Too" entrepreneurship program (Digital

Marketing).
